

Calf Drenchers

Reusable Bag Calf Feeders

Vinyl Zipper Bag Calf Feeder has 48" long tube with shut-off and 16" rigid probe with soft rounded tip. Reusable bag has capacity markings in quarts and liters. Bag has large comfortable handle, and capacity of 2.5 liters/ 2 qts.

CF85 Oral Calf Feeder, bagged.

CF85

Speedy Drencher

Speedy Drencher bottle features large integral finger grip, wide top for easy filling, wide stable base, and flow control dial. Probe design is well-proven for safety and ease of use.

211180 Speedy Drencher with Probe and 2.5 liter bottle. Wt. .85 lbs.
213734 Large Speedy Drencher with Probe and 4 liter bottle. Wt. 1 lb.

Adapt-a-Bottle Fluid Feeder

Adapt-a-Bottle Calf Fluid Feeder comes complete with a standard 2-quart calf nursing bottle (same as Coburn 913B), cap, large diameter tubing, and rigid probe with tapered bulb for safety and ease of insertion. A flutter valve in the head helps to equalize bottle pressure which improves flow and calf acceptance. A ratchet clamp is provided to shut-off flow as needed and a support tube at the bottle exit port helps prevent kinking of the tubing.

05250 Adapt-a-Bottle Fluid Feeder. Wt. 1 lb.

Magrath Fluid Feeders

Innovative Magrath Fluidfeeders permit one-hand administration of colostrum and life-saving fluids to newborn calves. Probe crimps at the neck to stop flow while user inserts the esophageal tube. The semi-flexible bottle is then turned upright and fluids flow into the calf. Choose stainless steel or plastic. Bottle capacity is 2 quarts.

- 50PLNS-FF** Economy Fluidfeeder with Plastic Probe.
- 50PL-FF** Fluidfeeder with Smooth Plastic Probe and reinforced neck.
- 50SS-FF** Fluidfeeder with S.S. Probe and reinforced neck.
- 101NA** Nipple fits 101RT Solution Container for a handy nurser. Design discourages gulping.

Magrath One-Gallon Fluid Feeders

This Calf Fluid Feeder features a vented plastic bottle and choice of plastic or stainless steel probes which have reinforced necks. One gallon capacity.

- 50PLGL-FF** Fluid Feeder with Plastic Probe.
- 50SSGL-FF** Fluid Feeder with S. S. probe.

Drenchers

Dr. Register's 300cc Drench Gun

Dr. Register's Drench Gun has a comfortable contoured grip which reduces fatigue. Made of durable high-impact materials, the gun features a Teflon O-ring, long-wearing nylon nozzle and adjustable metering limiter. No lubrication is necessary. Gun is filled with two hands and operated with one hand. Not suitable for use with very viscous liquids. Bagged with instructions. Wt. 1 lb.

- 522000** Dr. Register's 300cc Drench Gun
- 522010** Repl. Nylon Nozzle
- 522020** Repl. Cylinder
- 522030** Repl. Teflon Scraper Seal

Easy Drencher

DBEDX

213701

Safe and convenient, Easy Drencher administers life-saving fluids to cattle and other large animals. The easy-grip handle makes it easy to use even with struggling animals. Mix dry or liquid concentrates right in the bottle, which has a wide neck opening and is marked with 100ml graduations. The 5 inch soft plastic dispenser spout should be inserted in the side of the mouth to encourage and enable swallowing. As with all drenchers, care must be taken to allow the animal to adequately swallow during drenching.

DBEDX Easy Drencher with 1.2 quart molded bottle and dispenser spout. Wt. .5 lbs.

202227 Repl. Probe Cap only for Easy Drencher

213701 Big Drencher with 2.5 quart molded bottle and dispenser spout. Wt. 1 lb.

213672 Repl. Probe Cap only for Big Drencher

3 Foot Flexible Probe

5 Foot Flexible Probe

Cattle Pump System

Cattle Pump Systems enable one person to pump quantities of heavy viscosity material into the bovine stomach. It is especially useful for critical times when the animal requires a large amount very quickly.

The brass pump is chrome-plated and operates at 8 strokes per gallon. The oil-resistant hose is 6 ft. long with screw hose fittings. Handle has attached nose lead. Entire system is packed in a canvas carry bag with instructions.

The probe can be passed easily into the esophagus only, not into the lungs, and it has an inherent damming action which diminishes the chances of regurgitation. The probe takes advantage of the natural extended head and neck position of the cow which eases stress on the animal and facilitates swallowing.

300-CPS Cattle Pump System with 3 foot flexible probe, bagged, complete. For cows over 300 lbs. but less than full size. Wt. 10 lbs.

500-CPS Cattle Pump System with 5 foot flexible probe, bagged, complete. For full grown cows and bulls. Wt. 11 lbs.

Replacement Parts
