

Milk Bar® Milk Kart

The Milk Kart holds 33 gallons for quick and easy refilling of Milk Bar feeders with no lifting or carrying of heavy buckets. Kart is fitted with a flow meter, sight glass with gradients, a power whisk for mixing milk replacer, and a 7.8 ft. hose with a valve-operated nozzle. Double insulated construction of the tank keeps milk warm and the large diameter, heavy duty steel-rimmed wheels allow easy movement over any terrain; Built-in brake is automatically applied when the handle is released. 12VDC pump is gentle on the milk and is activated by the switch, while a valve adjusts and stops the flow.. Use a cordless drill, 14VDC or larger, (not included) to run the mixing whisk.

265-6000 33 Gallon Milk Kart complete, 40" L x 47" H x 28" W. Wt. 126 lbs. Feeder ships by truck.

Raise calves the easy way!

Filling a Milk Bar 10 in the first pen.

The flow meter measures the volume.

Roll on to the next pen.

20 calves feeding in a few minutes!

Milk Bar® Straight Line Feeders

Straight Line Feeder is designed to fit on gates and features strong aluminum hooks and bracing for strength and easy handling. Feeders are pre-drilled for 1" or 1-1/2" if bolting on rails is preferred. Comes with Milk Bar Calf Teats. Feeders are 13"H X 7-3/4" W, lengths indicated below. Feeders ship oversize or truck.

265-2313 Milk Bar 13 Straight Line Feeder with 13 teats. 7 ft. long and holds 26 gallons.

265-2318 Milk Bar 18 Straight Line Feeder with 18 teats. 11 ft. 4 in. long and holds 44 gallons.

Milk Bar® 20 Feeder

Milk Bar 20 Free Standing Feeder has a 30 gallon capacity and features a heavy-duty solid base eliminating calves from knocking the feeder over. The feeder bowl locks into the stand allowing you to move the whole unit from one pen to the other, it also stacks inside the base stand for convenient transport and storage.

265-2320 Milk Bar 20 Free Standing Feeder. 34" diameter by 36" high, assembled. Wt. 26.5 lbs.

Patented Milk Bar Teats promote slow-nursing for maximum salivation, healthy digestive development and a minimum of choking and guzzling. When the salivation urge is satisfied, animals are more content and the enzymes and natural antibodies in the saliva help calves build digestive health and a strong immune system. Nipples require no valves or tubes and fit in a 7/8" hole.

265-3001 Milk Bar 1 for Lambs and Kids. Holds 3 qts. Wt. 1.5 lbs.

265-3003 Milk Bar 3 for Lambs and Kids. Holds 3 qts. Wt. 1.5 lbs.
