

# Cattle Water Bowls

**2.5L Bowl Capacity**  
**Approved Non-Siphoning**

## FORSTAL Water Bowl

Forstal Water Bowl for cows is large, deep, easy to clean and lightweight. The smooth plastic material is strong but flexible, withstanding bumps and pressure. Every bowl is strictly tested at the factory for quality. Non-siphoning bowl comes ready to install with 3/4" top and bottom inlets and frost plug. Bowl comes with standard pressure valve for 20 to 50 psi but others are available for gravity (less than 20 psi) or high pressure (higher than 50 psi). Flow rate is 3.7 gpm at 40 psi. An optional Horse Paddle is available to adapt the bowl for horses. Optional U-Clamps are available for 2" or 3" pipe.

**644-3261** Forstal Paddle Water Bowl for Cows, 3/4" connection top & bottom. Order U-Clamps separately. Wt. 2.4 lbs.

**644-3262** Forstal Paddle Water Bowl for Cows, 3/4" connection top & bottom with 2" Stainless Steel U-Clamps. Wt. 2.7 lbs.

## Plastic Cattle Bowl

**2.5L Bowl Capacity**  
**Approved Non-Siphoning**

Polymer Water Bowl is mounted directly to pipe or flat surface with no need for a heavy casting. Cows quickly learn to bump the nose paddle to release water. Bowl is non-siphoning, easy to clean, durable, and may be used with cattle, horses, or sheep. 1/2" male NPT stainless steel inlet at the top of the bowl. Brass valve is rated at 3.7 gallons/14 liters per minute at 40 psi.

Bowls include 2 back plates for mounting (bolts not included). Optional spacer is used to project the bowl approx. 2" from the mounting so that a water supply hose can be threaded up behind the bowl.

**PCBLS** Polymer Cattle Water Bowl, complete with 2 back plates. 5.2 lbs.

## Nose Paddle Cattle Bowl

**2.5L Bowl Capacity**

**Approved Non-Siphoning**

This rugged water bowl comes in high impact blue copolymer polypropylene, or black enameled cast iron. Water is released into the bowl by moving the orange cylindrical plastic nose 'paddle' in any direction. The simple, safe, water-release valve at back of bowl makes cleaning a quick, easy job. The AU82P is fitted with cast iron threads for permanent installation. Both bowls are equipped with brass valve and 3/4" top and bottom inlets. Valve is rated at 3.7 gallons/14 liters per minute at 40 psi.

**AU82P** Blue Polymer Bowl complete with U-clamp for 1-1/4" to 1-1/2" pipe. 9 lbs.

**AU82C** Black Enameled Cast Iron Bowl complete with U-clamp. Wt. 22 lbs.

## Automatic Pen Waterer

Automatic Pen Waterer from Milk Bar is covered and has a unique hole shape which helps eliminate debris from contaminating the water. Waterer features a bottom drain for easy cleaning and holds two gallons making it ideal for young calves, sheep and goats. It can be attached to wood rails, pipe rails, walls or steel gates. Threads are standard garden hose and an automatic float valve (830) is included along with 4 self-tapping screws and 4 cable ties for installation. Dimensions are 24" H x 11" D x 13.5" W

**265-4010** Pen Waterer. Wt. 8.5 lbs.

## STRANGKO Water Bowl

**2L Bowl Capacity**  
**Approved Non-Siphoning**

**STRANGKOLON BOWL**  
(shown with optional mounting hardware)

The Strangko Nylon Bowl is virtually indestructible. Nylon, unlike many plastics, actually flexes on impact then springs back to its original shape. Bowl is lightweight, smooth and cleanable. The bright blue paddle activates the nylon valve to deliver water quickly then shut off cleanly. Paddle may be locked with flip-up lever for selecting watering.

**NS77** Strangko Nylon Bowl. 1/2" NPT. Wt. 1.5 lbs.

## High Flow Cattle Bowls

2.5L  
Bowl  
Capacity

AU82-P-SF

Water bowls featuring the Super-Flow valve deliver a full 5.8 gallons (22 liters) per minute for more efficient livestock watering and fresher water. The animal simply nudges the cylindrical nose paddle to fill the bowl. Super Flow valves feature brass casting and stainless steel components. A simple, safe, water-release mechanism at the back of the bowl makes cleaning a quick easy job.

4.25L  
Bowl  
Capacity

RSS-02

RP-02

AU82 styles have heavy casting with 3/4" top and bottom inlets. Choose cast iron or rugged copolymer with cast iron threads unlike other polymer water bowls which are more cheaply made. Bowls have a 2.5L capacity. Fastening U-clamp and bolts are included.

**AU82-P-SF** Polymer Super-Flow Bowl, complete, clamp included. Wt. 9 lbs.

**AU82-C-SF** Cast Iron Super-Flow Bowl, complete, clamp included. Wt. 22 lbs.

Round bowls have a bit more depth than AU82 styles. Brass threads, 3/4" top and bottom inlets. Wall-Mount Valve Bracket with Bushing (RSS-02-2) included. Bowls have a 4.25L capacity. Order Back Mounting Plate for Pipe Mount separately.

**RSS-02** Super-Flow Round Water Bowl, stainless steel, complete. Wt. 6.8 lbs.

**RP-02** Super-Flow Round Water Bowl, blue polymer, complete. Wt. 4.6 lbs.

## Push Button Water Bowls

Studies have shown that dairy cows give more milk and have consistently fewer problems when individual water bowls are available. When cows share a bowl, the dominant cow not only prevents the others from drinking, she may actually drink more water than needed. These low-cost, top quality approved non-siphoning bowls have no paddle to wear out or get jammed with hay and debris between paddle and bottom of bowl. Bowls have a brass push-button water valve which is the simplest method of watering livestock. Valve is rated at 1.3 gallons/5 liters per minute at 40 psi but may be adjusted to deliver the most effective GPH; 3/4" top and bottom inlets. Cast iron valve body. Easiest to clean of all bowls on the market.

The galvanized steel bowl has a rolled rim for extra strength. The plastic model is lightweight and made of antibacterial plastic. You can sell them with complete confidence backed by our regular guarantee of satisfaction. All replacement parts available. U-Bolt mounting bracket is ordered separately.

**M81** Galvanized Steel Cattle Bowl, complete. Wt. 8 lbs.

**M81P** Unbreakable Blue Plastic Cattle Bowl, complete. Wt. 6.5 lbs.

## Float Bowls

Non-siphoning float bowl provides constant fresh water. Heavy gauge galvanized steel S76 bowl suits cattle and hogs. S91 bowl is preferred by horse owners for its deluxe appearance, has durable red anti-bacterial finish. MA04 polymer float bowl is a lightweight option.

Drinking area, with valve cover down, measures 9" x 7". Tamper-proof valve cover protects valve and float. Easy flip-up finger hole is convenient for cleaning and inspection. Plastic float and arm have brass adjusting pivot to set water level. Water line entry on either side of bowl has 1/2" brass fitting. Bowls can be fitted back-to-back.

**S76** Galvanized Barn Bowl complete, boxed. Wt. 7 lbs.

**S91** Deluxe Bowl with Red Baked-On Finish complete, boxed. Wt. 7 lbs.

**MA04** Polymer Float Bowl complete, 2 S.S. mounting washers included, boxed. Wt. 3.7 lbs.

**S76SSD** Stainless Steel Barn Bowl complete, boxed. Wt. 4.5 lbs.
